At the last CFD School Committee meeting we had eighty-four attendees via zoom. The committee discussed having an open house at the school for village residents. The Prudential Committee is planning on holding the District Annual Meeting at the School in May. How the warrant would present the option of accepting the school by the district was explored. Ray detailed acquisition costs that would be needed for the motion to adjourn evaluation. To keep costs down the heat should be shut off and the pipes drained.

It was agreed that the negotiating team needs to set up a meeting with the Mark Alves or Andy Colburn as soon as possible. Along with acquisition of the school there needs to be a discussion about conservation restrictions on the town recreation fields. A motion to adjourn was approved.
